

HEADING TO TOWN

You would have much rather spent the day fishing, but your pa needs you to take the wagon and head to town for supplies. After some grumbling, you realize you can waste some time with your buddies in town. Halfway to town, you stop to rest the team and have a quick lunch. Just as you are preparing to hook up the team, some bandits appear over the ridge. Times have been tough, and you can't afford for them to take what little you have.

Starting line: **"I don't even have any supplies yet!"**

Shooter will start standing by side of wagon in the middle, with both hands flat on the wagon floor. Shotgun is staged on wagon in center, and rifle is staged on horse. At the start signal, shooter will move to horse, retrieve rifle, and engage rifle targets from left to right with double taps (1-1-2-2-3-3-4-4-5-5). Move to wagon and discard rifle on wagon, retrieve shotgun, and engage shotgun targets until down. Discard shotgun on wagon, move to right shooting box, and engage pistol targets in the same manner as the rifle.
