

# TEXAS FEVER!

You have warned the Texas cattlemen not to bring their cattle through your land. Texas fever is a real threat, and you are not gonna risk lose your herd over a shortcut they want to use getting their cows to market. When they refuse to heed your warnings, it is time to protect the herd the only way you know how. They may win, but not without taking some losses.

Starting line: **“Turn them filthy cows around”**

Shooter will start standing with rifle at the ready next to the horse. Shotgun is staged on right rest. At the start signal, shooter will engage rifle targets from the left with one on each of the first two targets and three on the third (1-2-3-3-3), then repeat. Move to left rest, stage rifle, and engage pistol targets in the same manner as the rifle targets. Move to right rest, pick up shotgun, and engage shotgun targets until down
