

## Speed 5 x 5

For the speed 5x5 side match, the shooter will begin with hands flat on table, standing upright, with rifle staged on table. Rifle will have five rounds loaded, and one pistol will have 5 rounds loaded. At the start signal, shooter will engage pistol targets from either direction for five rounds in a Nevada sweep (for example, 1-2-3-2-1), then holster and retrieve rifle and engage rifle targets from either direction for five rounds in a Nevada sweep. Note: Rifle and pistol targets do not have to be engaged in the same direction.

Each shooter may shoot two times each. The best of the two will count. Additional attempts after the second try are simply for “fun” and bragging rights.
